the amendment to the law as proposed by THE EVENING WORLD.

The law now permits a police magistrate to have the sole and arbitrary power of com-mitting these children. This has rendered it

almost impossible for a parent to regain pos-session of his or her child. "To-day, in this city of New York, and in this imperial State, there has been a system of white slavery tolerated and permitted whereby white children, usually the offspring of poor and humble parents, have been seized by the officers of the Society for the Prevention of Cruelty to Children. And this, too, on the slightest pretext and often without potice to their parents.

They have been brought before a police magistrate, a hurried hearing had, the children sent to some temporary asylum, and then distributed to families perhaps thou-

"It is the duty of the Republican party that the duty of the representatives, such

and those who are its representatives, such to any reform whereby the rights of

poorer classes may be promoted and the sanctity of home and the rights of parents protected and upheld.

We shall aid, therefore, in this glorious movement which The Evening World is

low so vigorously prosecuting, and which has been also indorsed at a general meeting of the Tammany organization.

Some means should be devised whereby no home shall be invaded and no little child

torn from the arms of its parents without some right af review by a competent court. "A case like Tina Weiss's came under my own observation some three or four weeks

A score of men tried to get out by one small exit simultaneously. They sprang through windows, reckless of consequences. Fifteen men were captured in the pit, but when the men arrived at Newtown Jail, two miles away, they only had eight prisoners, the others having escaped.

The captured men were Billy Hill, son of Harry Hill, and the nominal proprietor of the place, Charles Maham, John Vath, Benjamin Carpenter, Thomas Lewis, John Anderson, Benjamin Cooper and Capt. Ely Corwine.

## COMPTROLLER MYERS'S DUTY.

Mr. Beckman Says Market Stand-Keepers Ought to Have Immunity.

Comptroller Myers to-day wrote to Corporation Counsel Beekman, asking his advice regarding his position in the market investigations. Among other things he said :

As regards Mr. Kilby's case, I consider it anally disposed of as far as this investigation is concerned. I deemed it my duty to revoke his incurse as seon as I discovered that he had cor-rupted one of my employees, and communicated this view and contemplated action to your as-sistant at the time. I am still of the opinion that justice to my

office, to the city and to myself demand that should, without hesitation, give notice to a others who might feel disposed to follow like courses that they should not enjoy the fruit a their corrupt bargain while I was able to take from them.

from them.

The Comptroller then asks if it is proper that he should offer immunity from a forfeiture of their privileges in the new market to persons who may hereafter testify as to pribery or blackmailing practices in procuring stands in the new market.

The reply of the Corporation Counsel was emphatically to the effect that it is the Comptroller's duty to grant the immunity. Commissioner Holahan is sufficiently re-covered from his illness to go on with the investigation on Monday.

Leave of Dublin.

INPECTAL TO THE EVENING WORLD ! Boston, Feb. 23, -One of those romantic elopements which cause considerable excitement in society was brought to light on the arrival of the Beaver line steamer Lake ton last night.

The young lady is the daughter of an Irish nobleman holding a colonel's commission in the English army. She is a charming brunette, just past ber

majority, with a pretty face and figure and a striking carriage. While the girl is attractive, and the person-

ification of sweetness, her gay Lothario is just the reverse. He is a man about two score, with hair alightly tinged with grav.

There is nothing about his personal manners that would seem to be attractive to a woman. It is the same old story of romance and

foolishness.

A coachman drove his employer's daughter about the suburbs of old Dublin.

They took passage on one of the night boats that ply between Dublin and Liverpool. On their arrival in that city they went to the office of the Beaver line.

They engaged a second-class passage on board the Lake Huron.

They took passage under the assumed names of "Mr. and Mrs. Neil."

The father discovered the elopement and notified the Scotland Yard detectives.

The men detailed easily traced the fleeing couple. The father then cabled Pinkerton's men in this country to intercept the couple on the steamer's arrival in Boston.

Supt. Cornish, of the Boston office, was on hand at the wharf when the ship came into East Boston last night.

He casily identified the couple.

He used all his persuasive powers to induce the young lady to leave her lover, but she obstinately refused.

She said: "My affection for him is stronger than any love of home and my father. I cannot. I will not leave him:"

The couple say they will be married to-day.
